Enclosed is the Texas State Securities Board’s (SSB) proposed Internal Audit Plan (Plan) that was prepared for audits and other functions to be performed in fiscal year 2022. This Plan determines the scope of internal audit activities and is the source for assignment and prioritization of internal audit responsibilities for fiscal year 2022. Specific planning for audit procedures is a naturally ongoing process; thus, the Plan is reviewed annually and may be revised by the Board or Audit Committee, as necessary.

This Plan has been prepared by Garza/Gonzalez & Associates, an independent Certified Public Accounting firm, following Generally Accepted Auditing Standards, International Standards for the Professional Practice of Internal Auditing, and the Institute of Internal Auditors’ Code of Ethics contained in the Professional Practices Framework.

May 9, 2022
I. Methodology

SSB’s fiscal year 2022 Internal Audit Plan (Plan) was prepared utilizing a risk assessment process, where we reviewed various documents; and, questionnaires completed by SSB’s Audit Committee Chair, Commissioner, and other staff, as documented below.

The following documents were reviewed and considered in our risk assessment process:

- Organizational Charts
- Financial and Non-Financial Reports
- Policies and Procedures
- Applicable Laws and Regulations
- Audits and/or Monitoring Reports from Third Party Agencies
- Prior Internal Audit Reports

Questionnaires were developed for completion by SSB’s Audit Committee Chair; Commissioner; and, Division Directors, to update our understanding of each division, and its role within the overall scheme of SSB. The questionnaires included topics; such as, issues and/or concerns, recent changes in key personnel, time elapsed since last audit or review, status of past audit findings, and regulatory compliance requirements (e.g., TAC 202, Information Security Standards; contract management; and, benefits proportionality). Utilizing the information obtained through the completed questionnaires and background information reviewed, 11 audit areas were identified as the potential audit topics. A risk analysis was completed for each of the 11 potential audit topics and then compiled to develop SSB’s overall risk assessment.

The following 8 risk factors were considered for each potential audit topic:

1. Materiality  
   Measure of the auditable unit’s financial materiality based on the dollar amount per year of assets, receipts, or disbursements for which the unit is responsible; or, non-financial materiality based on the degree of its responsibility related to the agency’s primary mission.

2. Time since Last Audit or Review  
   Measure of the number of years between the date of the previous audit or review and the date of the risk assessment.

3. Results of Prior Audit or Review  
   Measure of the results of the prior audit or review.

4. Adequacy of Staffing Levels  
   Measure of the adequacy of the auditable unit’s staffing level as it relates to the achievement of its objectives.
5. Policies and Procedures  Measure of the existence of policies and procedures documenting the auditable unit's activities.

6. Compliance with Contracts, Laws, and Regulations  Measure of the complexity of contracts, laws, and/or regulations for which the auditable unit is responsible for ensuring compliance.

7. Susceptibility of Theft, Waste, Abuse, or Fraud  Measure of the auditable unit’s risk and controls in place as it relates to theft, waste, abuse, or fraud.

8. Issues or Concerns  Measure of issues or concerns expressed in completed questionnaires.
