This is your OFFICIAL NOTICE of the issuance by the Securities Commissioner of the State of Texas (the "**Securities Commissioner**") of an EMERGENCY CEASE AND DESIST ORDER pursuant to Section 4007.104 of The Securities Act, Tex. Gov't Code §§ 4001.001-4008.105 (the "**Securities Act**").

The Enforcement Division of the Texas State Securities Board has presented evidence sufficient for the Securities Commissioner to find:

#### FINDINGS OF FACT

1. Slotie NFT ("**Respondent**") is being served by (1) via mail to 38 Vazha Pshavela Ave., Tbilisi 0177, Georgia and (2) via email to the subscriber email address registered with GoDaddy.com, LLC for Slotie NFT.

#### THE SLOTIES NFTS

2. In October 2021, Respondent began operating in the country of Georgia. It is now soliciting investors by way of the internet, including residents of Texas, to participate in an unregistered DeFi Gambling investment.
3. In this case, Respondent developed an NFT, or nonfungible token, it purports will grant holders access to the new world of Defi Gambling and provide owners with real world benefits by way of the profit-sharing agreement. The names of the NFTs are "Sloties."
4. In furtherance of the scheme, Respondent is using an internet website and various social media platforms to publicly solicit securitized NFTs tied to Defi Gambling.

5. The securitized NFTs are similar to shares of stock and other equities insofar as the securitized NFTs purportedly provide purchasers with shared ownership of the revenue generated by the utilization of NFT-based slot machines in Defi Gambling metaverses.
6. Respondent is funding the internet and metaverse casinos through the sale of 10,000 Slotie NFTs to the public.
7. The securitized NFTs also purportedly determine the investors amount of passive income based on the NFTs rarity. NFT rarity refers to how limited a certain NFT is depending on its traits such as color, design, costume, etc. The ownership of a Sloties convey the right to participate in Slotteries. Slotteries are what Respondent calls various drawings and lotteries, including contests that award cash, NFTs, free spins in a weekly lottery, and the earning of WATTs.
8. According to the Slotie website, "WATTs is a token which acts like the energy in the Sloties' world. WATTs are generated on a daily basis. Every Slotie owner gets 10 WATTs tokens daily. You will have enough WATTs to breed your Sloties in 3 months. For those who can't wait to get their Junior Sloties, there's the opportunity to buy tokens from other owners on the secondary market." WATTs can be used to create another series of NFTs called Junior Sloties. Once you obtain 1800 WATTs and 2 Sloties, an owner can create a Junior Slotie. This is referred to as "breeding."

### **SLOTIE JUNIORS**

9. According to the Slotie Junior website, "Slotie Juniors are the next generation of NFTs in the most anticipated blockchain gambling network of Sloties. Only 5,000 Juniors will ever be mintable with the remaining 5,000 Juniors reserved for Slotie Holders to breed. Slotie Juniors grant access to the Las Vegas of the metaverse, SlotieVerse. Owning a Junior Slotie literally doubles the profit for the Slotie holder."
10. According to the Slotie Junior website, "Slotie Juniors grant proof of ownership on the Ethereum blockchain and are based on the ERC-721 standard. With Slotie Juniors, the power is in the hands of the holders who keep 100% of the rewards earned in the Slotie Junior district of SlotieVerse." Depending on the Slotie Junior traits will determine different benefits, from the amount of Earned Holder Reward (EHR), to more rakeback percentages, to more free spins in the SlotieVerse.
11. Slotie Junior holders will receive a plot of land via airdrop in the SlotieVerse's Slotie Junior District that is controlled by the Slotie Junior holders. This ownership gives the Slotie Junior holder community the authority to decide on how to use the land. The Slotie Junior community, holders of Slotie Juniors, will control 100% of the income of the district.
12. In SlotieVerse, EHR is generated from the marketplace which is where users trade with different assets: 3D objects, new casino games, new artworks, and generated from Junior Slot machines. According to the Slotie Junior website, "50 Slot machines are placed in the Slotie District. Slotie Juniors earn different amounts of

EHR from the slot machines by becoming liquidity providers, or just being holders of the Slotie Junior.”

13. According to the Slotie Junior website, Slotie Junior holders also receive benefits in SlotieVerse by having the ability to, “attend events with discounted prices, have free spins, and rakebacks in the slot machines, and other casino games in SlotieVerse. Slotie Juniors will own land in Sandbox, which will be developed as a casino, and this casino will serve as a bridge to SlotieVerse. The Sandbox land is managed by the Junior’s DAO. Part of the funds collected from the Juniors sales and royalties collected from OpenSea will be spent on the Sandbox land development.”

### **SLOTIEVERSE**

14. Respondent is using the Slotie Website, Slotie Junior website, and the Slotie Social Media Platforms to promote the use of NFT-based slot machines and the development of a decentralized casino named SlotieVerse on the Ethereum blockchain. According to the Slotie Junior website, “SlotieVerse is a Las Vegas metaverse experience where all the fun takes place. SlotieVerse aims to create unmatched social experiences with the mission to have entertaining events in every corner.”
15. Patrons, acting through digital representations of themselves known as avatars, will be able to experience the SlotieVerse by having access to not only casinos, but also malls, clubs, entertainment centers, and autohouses.
16. Respondent has been providing information about the development of the SlotieVerse through various webcasts and AMAs, an acronym of “ask me anything” that refers to an interactive presentation where audiences ask questions and hosts provide answers in real time. The AMAs are conducted during the Slotteries that occur in real time on Discord.
17. Respondent first announced in November 2021, that, “Holding a Slotie NFT can be seen as a partnership deal between holders, casinos, and Elia Software. Casinos pay 12% of their slot machines’ revenue as a commission to us for executing and distributing high quality gaming solutions for them. We share 80% of our NFT-based slot machine revenue to the Slotie owners on a monthly basis.”
